**BEFORE USING THE HELIUM APP** (or any other 3rd party app) to register FinestraMiner on the Helium network:

Please visit **thefinestra.com / install** for additional install instructions.

---

### **ANTENNA GAIN & CUSTOM FIT**

The FinestraMiner's antenna gain specification has been corrected and revised upwards to 2.6dB (supplier verified). Also, FinestraMiner's antenna connector is designed to work only with the included antenna and the use of any other unapproved antennas will degrade its performance or cause it to not work at all.

---

### **INDOOR USE ONLY / ORIGINAL ENCLOSURE ONLY**

FinestraMiner is designed for indoor use only. Using FinestraMiner outdoors, removing its plastic enclosure or using it within another enclosure degrades thermal and radio performance and will void the warranty.
